the sure brilliant future that is before him, well afford to stand aside for a time in favour of mortals less blessed. Mr Gosohen, it is said, was at one time to be sent to India as Viceroy, but that has been settled otherwise. With regard to Lord Ripon's appointment we note that Lord Dufferin was suffering from cataract, and that Lords Kimberley and Ripon were each spoken of as Viceroy. The Daily Telegraph publishes a paragraph stating that Gordon Pasha hasbeen appointed Private Secretary to the new Viceroy. If it had run "Military Secretary" we should have been much more inclined to accept it as correct. The order which had been made for the preparation of the troopship Malabar to convey Lord Ripon to India had been countermanded, May 5th, and his Lordship was to proceed in the P. & O. steamer Ancona. Lord Carlingford had declined the appointment of Ambassador at Constantinople, to which Mr Goschen had to be sent as a stop-gap during the absence on leave of Sir Austin Layard. Lord Rosebery is young, and can, with over-work to which the Chief Justice has

of late been pretty hardly subjected, and make the whole work of the Supreme Court ran more smoothly and satisfactorily.

THE complete results of the tria gular shoo ing match have now been telegraphed and are as follows :-

Kobe, total score, 642, highest 85. Shanghai, 630, highest 88.

Hongkong, 400, highest 81. It will thus be seen that Kobe takes the place of honour with 12 points over Shanghal and 147 over Hongkong, while the cup goes to the successful scorer of 88 at Shanghai. The weather here was fatal to good shooting, but we have no record yet as to how matters stood in this way with our opponents.

Ir is a pity that things could not have been better arranged than they have been for the Queen's Birthday reception at Government House. At the eleventh hour the community are informed that there will be reception after the State dinner at Government House, and that "the various Consuls and Foreign Officers, Officers of H. M. Navy and Army and Civil Service, and the ladies and gentlemen of the Colony" will be received by Sir John and Lady Hennessy at I past nine o'clock this evening. Apart from other considerations, we fancy that a twelve-hours' general invitation is scarcely adequate for such an occasion; and it sayours, we think, somewhat of presumption on the part of our morning official organ to | tunting. draw the inference that the large number of residents who will be unable to be present do not belong to the "loyal communi- at the present Criminal Sessions it may Owing to the unfortunate circumstances of the case, there will probably be as much loyalty found outside of the gubernatorial palace this evening as inside of it.

OUR morning contemporary states, evidently upon the authority of the "Press Commissioner," that the Band of the 27th Regiment will play at Government House this evening, instead of Head-Quarter House; and that the dinner intended to be given by Major-General Donovan has been abandoned. Now, although we think it is a pity that the Band was ever refused (if that be true), it is somewhat remarkable that all this should be so elaborately recorded with so evident bias in prominent type. Whatever may be the reason, there is an apparent intention demonstrate that the Major-General Commanding is all wrong and that the Governor of the Colony is right from beginning to end. The officers of the Regiment have, we understand, expressed their opinion that their Band should go to Government House, on the ground that certain members of ruling dynasties in Europe were to present there. But it will be wiser, we fancy, to reserve an sopinion upon the whole question of disputed authority until the entire correspondence is considered and pronounced upon by the proper authorities

"Ir's an ill wind that blows nobody any good," is an old saying and a true one. If the appointment of Captain Francis, of the Hongkong Volunteers, has any good effect at all, it may be regarded as a tardy acknowledgement of the existence of that corps. It is true, as we stated some time ago, that little enough has been done, by way of encouragement, for the H.K.V., and that they have not been recognised officially by the Home Authorities. The appointment of the Captain of the Corps, however, as an Extra A. D. C. to the Governor, although perhaps an involuntary compliment -being the only way out of the dilemma into which H. E. the Governor has drawn or found himself-may be accepted as a crumb of comfort by the poor Volunteers. Out of confusion it may be that order may arise, so far as the Corps is concerned, by the appointment of Captain Francis. In other respects there is nothing by satisfactory o'd'ook on Monday evening, the 24th inst. to be said beyond the fact that Captain Francis will doubtless be of service to His Francis, Captain H. V., Extra Aide de-Excellency, as E. A. D. C., as he has been Camp. Government House, Hongkong, on several former occasions in various other capacities.

THE 24TH MAY IN-HONGKONG. To the Editor of the "CHIRA MAIL,"

May 24, 1880.

Sin, -The Queen's Biethday has been celebrated in Hongkong in a style not befitting the occasion. The Royal Standard has waved this day over many a hard-won varriage point : from the Citadel of Quebec, rom the Port of Gibraliar, from the Bala Hissar of Cabul, and in one and all the tradition of the day has been observed with all the pomp and circumstance that a military display can siford. No point has been omitted which could add to the splendour of the scene. The hour chosen for the parade has been one, which, while conceding all that was possible for the comfort of the troops, has nevertheless kept prominently in view the moral of the event -which is that all peoples, inhabitants of Her Majesty's dominions, should observe and feel the electric current which builds tugother the hearts of Englishmen. THE CHINA REVIEW.

HE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication to time such items of information, lists, similar in object and style, but slightly modified in certain details.

THE CHIMA REVIEW, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original

and selected upon the Arts and Sciences. Ethnology, Folklora, Geography, History, Literature, Mythology, Manners and Cus-toms, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipalego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Por-tuguese, are admissible. Endeavours are made to present a resume in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review

department. Notes and Roplics are classified together as "Notes" (head references being | St. Peter's Seamen's Church, West Point given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August. 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholars are ascertaining about China. The lecture on Chinese Postry in this volume is alone worth the price of the Review. Address China Review, Hongkong, -Northern Ohristian Advocate (U.S.)

Trubner's Oriental Record contains the following notice of the China Review :- " This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as In China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature. antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important atores of information, rendering some such channel of publigity as is now provided extremely desirable ; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors. In a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some and Sportsman's Requisites of all descriptions from Chinese novels and plays tions.—WM. Schmidt & Co., Gunare marked by both accuracy and freshness makers, Eastern House of Beaconsfield of atyle ; and an account of the career of Arcade. the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra. is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the China Review may receive the support necessary to insure its continuance. The publication is intend-

This paper is now issued every day. The subscription is fixed at Hour Dollars per annum delivered in Hongkong, or Seven Dollars Bifty Cents in-cluding postage to Coast ports.

It is the Arst Chinese Newspaper soor sessed under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business andlegal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan, from Australia, California, Singapore, Penang, Salgon, and other places frequented by the Ohinese,—consider themselves instified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to adver-tisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of
